I want to support statewide legislation that would prevent persons 18-20 years of age from entering into bars and lounges where alcohol is the principle commodity sold and can be consumed on the premises.

I support enforcing the present law (21 is legal age to consume alcohol in Louisiana) and research shows closing this loophole in our present law will save the lives of our children here in Louisiana.

>Alcohol is the leading actual cause of death for Louisiana Youth. (AMA facts)

>>Underage drinking is a factor in nearly half of all teen automobile crashes, the leading cause of death among teenagers.

>>Alcohol use contributes to youth suicides, homicides and fatal injuries – the leading cause of death among youth after auto crashes.

>>Among drivers aged 15-20, fatal crashes involving a single vehicle at night are three times more likely than other fatal crashes to be alcohol-related

(AMA Facts on Youth & Alcohol)

>Approximately 11 million American youth under age 21 drink alcohol.
source: AMA FACTS

>Death: 1,400 college students between the ages of 18 and 24 die each year from alcohol-related unintentional injuries, including motor vehicle crashes (Hingson et al., 2002).

>Drunk Driving: 2.1 million students between the ages of 18 and 24 drove under the influence of alcohol last year (Hingson et al., 2002).

>Injury: 500,000 students between the ages of 18 and 24 are unintentionally injured under the influence of alcohol (Hingson et al., 2002).

Our Children are worth all our efforts!

Message: We have worked for many years in Connecticut to prohibit "mixed-age" clubs. Our young people, who drink at rates 26%-28% higher than the national average, tell us that easy access to alcohol is their #1 reason for drinking. We all need to reduce access for youth and the 21 is 21 campaign goes a long way toward doing that. Every state should adopt this!

Message: Underage drinking, along with the cycle of generational abuse of alcohol/drugs is a priority concern in Lafourche Parish. Our Healthy Community Coalition, The Prevention Partnership, Inc., is a recipient of a La Partners in Prevention \$100,000 Grant to reduce underage drinking. We have recently implemented a community based afterschool program called Positive Action with a target age of 11-12 year olds. Please pray for the success of this program as we truly believe it can have a Positive Impact on our youth and the decisions they make.

Author: karen glorioso

Email: unquiet1@aol.com

Date: 2/3/2003 11:13:45 AM

Message: I support this legislation... I am living proof of what alcohol consumption (started at age 10) can become in the world of addiction. I am gratefully in recovery at age 40-something. So much precious time was lost by drinking-to-socialize ... eventually to escape. Had laws and community leaders been in effect back then, i'm not sure my drinking career would have been such an easy thing to continue day after day.
To HopeNet and all of you who support this, Thank you for allowing your GOD-ness to work

through you. KG(+:

Message: As a teen on the verge of becoming 18, I believe I (as well as my peers) am in grave danger when it comes to access of illegal substances. Some people place the argument that teenagers are intelligent to know their limits, that 3 years does not make a difference. However, the teens that do possess the level of higher learning to understand and pay attention to their limits are not the young men and women who are caught with illegal substances. In reality, 3 years is not that long to wait for something. Is it so hard to just understand the rules?

Message: I am a facilitator for an Alcohol Diversion class for minors. The average age that they report to start drinking is 10 years of age. The main person to supply their alcohol are their own parents or adult relatives. The majority of these minors that are referred as first time offenders through the city have already had at least one felony DUI. These minors do not need to be in a bar before

age 21. Unfortunately, they are already being fed booz in their own homes.

Message: I know from first hand experiences that this is indeed a killer and destroyer of families and lives. TOGETHER we can make a difference! We can approach this giant unitedly and take back our loved ones from the snares of addiction. We can make a difference! The key to excellence is commitment and the key to commitment is involvement.

Message: 3855 Penn Ave. N.
Minneapolis, MN 55412

Minnesota supports the work you are doing. Please keep it up. When our kids go to LA for school trips or for college, we like to know you are doing everything you can to keep them out of bars and away from alcohol.
